OUR MISSION

BUILDING RELATIONSHIPS THAT ADVANCE **YOUTH** WELL-BEING, AMPLIFY YOUTH **VOICE**, AND INSPIRE **ACTION** TOWARD A JUST **COMMUNITY**

SAFETY

BELONGING

EMPOWERMENT

& GENEROSITY

ABOUT OASIS

Founded in 1969 as a volunteer-run drop-in center for youth in crisis, Oasis has evolved into one of Tennessee's most comprehensive youth-serving agencies. Oasis is nationally recognized for our work, serving more than 2,500 at-risk youth in Middle Tennessee each year.

We have more than 15 programs and services that address a wide range of complex challenges faced by young people, their families, and our community. At Oasis, we focus on four key areas for success: *safety*, *belonging*, *empowerment*, *and generosity*.

Oasis provides a wide range of opportunities that reflect the diverse needs of youth and their families, from crisis intervention to youth leadership and community engagement to college and career access. All of our work is also firmly rooted in the evidence-based principles of positive youth development and trauma-informed care.

Letter from our President & CEO

My first year as President & CEO underscored how quickly the landscape around our work can change. From a government shutdown and shifts in public funding to evolving models for how services are funded and delivered, we navigated significant change while staying focused on sustainability, strengthening our foundation, and building toward the future.

That work sharpened our thinking and led us to a new three-year strategic direction, shaped by three essential questions: What impact do we want to achieve, and how will we measure it? How do we build the financial strength to sustain that impact? And how do we ensure we have the right voices, skills, and leadership at every level of the organization?

The answers are shaping our next chapter.

We are working to build a stronger, more sustainable Oasis, one that can invest in our people, maintain high-quality services, and respond to emerging needs without allowing uncertainty to dictate our future. We are sharpening our focus on the programs and strategies where we can make the greatest difference in the lives of young people.

At the same time, we remain grounded in something that has always been central to Oasis: young people themselves. Their experiences, ideas, and leadership must continue to shape not only our programs, but also the broader systems that affect their lives.

Letter from our CEO cont.

Our responsibility is not simply to respond when young people face challenges, but to work alongside them and our community to create conditions in which they can thrive.

That requires strong partnerships. It requires thoughtful stewardship. And it requires a culture where talented people can grow, collaborate, and lead. It requires an engaged, active board working hand in hand with staff toward a shared vision. Above all, it requires the courage to make intentional choices about where Oasis can have the greatest impact.

As we step into this next chapter, I feel real hope, and real excitement, for where this mission is going. For more than five decades, Oasis Center has grown alongside the young people and communities we serve. That won't change. We'll keep showing up with purpose, accountability, and an unwavering belief in every young person's potential.

Thank you for being part of this work and for helping us build an Oasis that is strong enough, bold enough, and sustainable enough to serve generations to come.

With gratitude and hope,

LaRhonda S.D. Magras, Ed.D.

MEET ASIA

When Asia started at Nashville State Community College, she quickly noticed that the commuter atmosphere, where many students worked part-time or full-time, made it harder to build the kind of network she had hoped for in college. Looking for ways to connect, she found the **Oasis Resource Center** on NSCC's Southeast campus.

Through **Oasis College Connection**, we staff resource centers on three NSCC campuses to meet students where they are and connect them with what they need to succeed. That can include tutoring, basic supplies, visits to four-year colleges, and opportunities to build community. These are all important steps in helping students stay enrolled. Across OCC programs in high schools and colleges throughout Davidson County, most of the more than 1,500 students we serve are the first generation in their families to attend college. Some are also new Americans, navigating life in the U.S. as part of a second or even third culture.

MEET ASIA (CONT.)

"[Corey] made it easy for us to ask for help," Asia said. Corey, a Student Success Advocate for seven years, takes a real interest in students' lives. He knows how to challenge them to stretch themselves while also supporting them along the way. **That positive youth development approach helps build confidence and encourages young people to keep moving toward their goals.** During her time at NSCC, Asia continued to shine and even decided, with Corey's encouragement, to run for Student Government President.

The Oasis Resource Center is more than a comfortable place to study with couches and coffee. By introducing students to one another and creating opportunities to connect through group events, **your support helps foster a sense of belonging and connects young people to a broader community.** When students leave the program, they carry with them the relationship-building skills that can continue to support their success.

Those skills helped Asia when she transferred to Hampton University. After earning her associate degrees at NSCC, she went on to graduate Magna Cum Laude from Hampton in 2025. Today, she works in customer service for Ford Motor Credit.

Asia's story shows the impact of your financial support. **She came to Oasis looking for connection and left with the confidence and relationships to keep moving forward.** Now, as a college graduate and young adult, she has come full circle. We can't wait to see what comes next for her.

Letter from our new Board Chair

After serving on the Oasis Board of Directors for the past two years, I am honored to step into the role of Board Chair.

I volunteer weekly at the Emergency Shelter, and I see firsthand that Oasis is a place where young people can find safety and build a future for themselves.

I am delighted that Oasis is led by such an experienced and engaging CEO. LaRhonda and her passionate leadership team are strengthening Oasis' solid foundation and preparing the organization for the future, all while staying focused on serving more children and families in need.

As Nashville and the surrounding communities continue to grow, so does the need for Oasis' work. The Oasis team and board are committed to meeting that need, and we're doing it through programs that **meet youth where they are, give them a voice, and provide a safe place to thrive.**

This year, we welcomed five new members to our board. Alongside our returning members, we now have a board that is highly engaged and full of expertise for Oasis to lean on as we look ahead.

It is a privilege to serve alongside this board, this staff, and this community. Thank you for being part of the Oasis story.

With gratitude,
